

## Photo report «World's Aids Day»

The integrated slogan of the action on World's AIDS Day in 2010 is "Many lights for human rights". This theme reflects the movement policy: in leadership, partnership, human rights, help and cure of HIV-positive people, awareness about HIV/AIDS problem.

The annual slogan, devoted to World's AIDS Day took place on the 13-th of May, 2010 together with Agrotechnical College students and attendees of Krasnoarmeyskaya High School, Pavlodar region. "Talemger" fund also took part in the action, being a partner in work with the Youth including prevention measures against HIV problem and drug addiction.

Since 1983, World's AIDS Day is devoted to those, who suffered from AIDS international epidemic. This company considers to be one of the oldest and is lead every 3-d Sunday of May. World's AIDS Day is not only the Remembrance Day, but also an opportunity to illuminate the mystery of present situation in the World in connection with HIV/AIDS spread. World's AIDS Day is carried out in more than a hundred countries all over the Globe, involving tens of thousands of people.

Action on World's AIDS Day included three blocks:

**1 block** – informational – all the participants were given red ribbons, the story of origin of the International project devoted to people suffered from the HIV epidemic was ended with showing the "Candlelight" video. Traditional lighting of candles symbolizes the memory of those died of AIDS. In present days it is 121 in Pavlodar.

**2 block** – preventive – participants got information about: what AIDS is, transmission paths and protection methods. In order to consolidate received knowledge, we asked the participants to answer the questions of comic quiz in which students checked themselves in a creative form on how not to get infected with HIV. This block was finished with showing the video about one of the most effective prevention methods – using a condom in sexual act.

**3 block** – dancing – the presenter of the action invited everyone to take part in International project “Dance 4 life”. “Dance 4 life” project was created in order to solve the problem of HIV/AIDS spread. The idea of the integrated dance, which leaves a message of solidarity and healthy way of life, was born by representatives of “4life” Foundation (Netherlands). Nowadays, it is a young people’s mark of international company against AIDS, and we would like to involve Pavlodar city and draw Youth’s attention to the movement.

**The project base was created by professional psychologists, dancers and actors.**

«Dance 4life» is a project which unites the Youth all over the World. The key elements of the project are music, dance and creativity. With the help of these instruments, everyone can put an effort in fighting against HIV/AIDS.

---

*Annually, they say about HIV spread problem once a year – on the 1-t of December. Taking up World's AIDS Day Company called "Many lights for human rights" in 2010, we motivate the community to speak about HIV problem more often and change the behavior to a safe one – not use drugs and choose a safe sex.*

**We really hope that our initiative will be supported by state, social and business structures and that all together we can prevent the spread of HIV/AIDS and drug addiction in our own beloved city of Pavlodar.**

**Call us right away!**
