# Compendium of Good Practices in HIV response in the WHO European Region

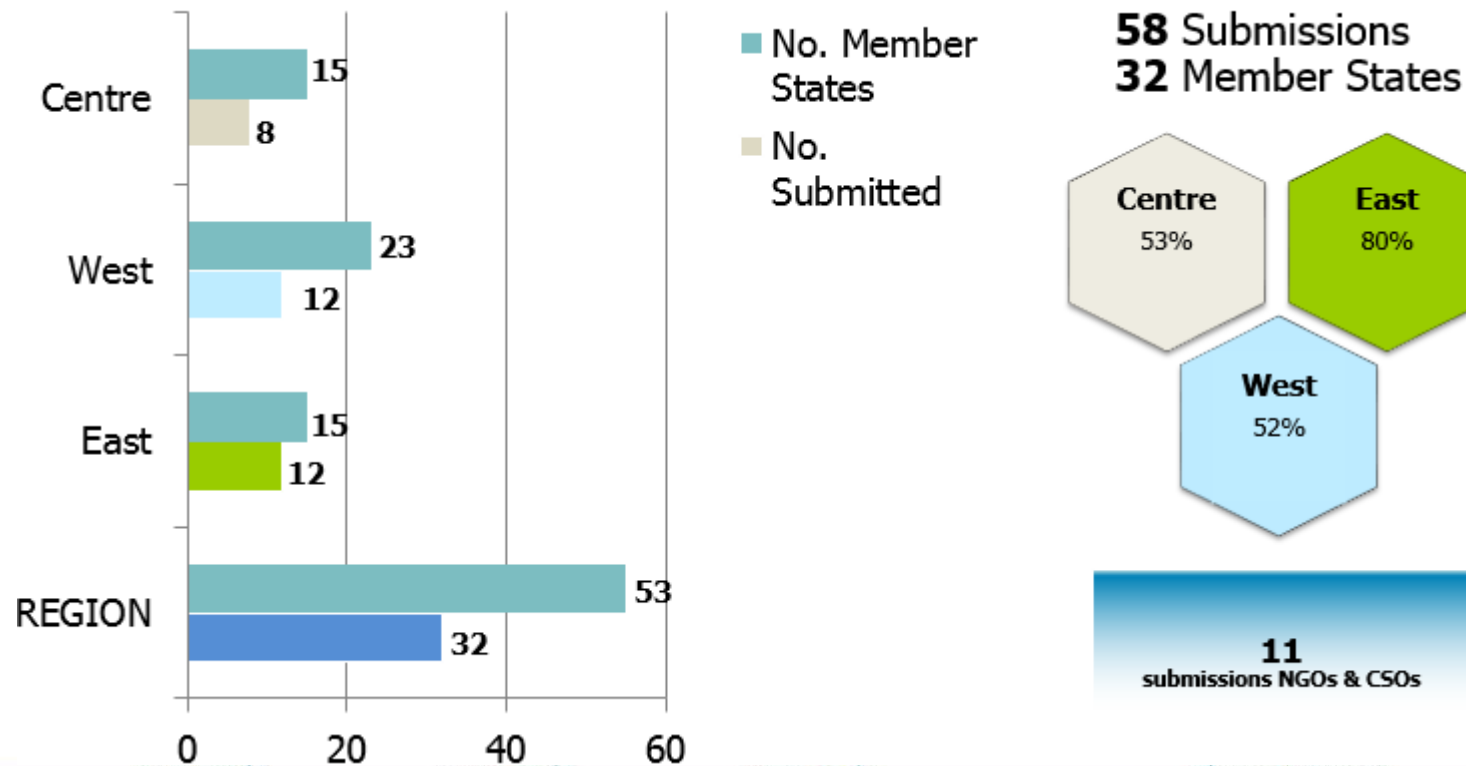

**Purpose:** to document and disseminate successful interventions in alignment with the Action plan. The practices are examples of Member State's progress towards WHO/UNAIDS targets on prevention, treatment and care, AIDS-related deaths, discrimination, and financial sustainability from international to domestic funding.

**Methodology:** practices were gathered from December 2017-April 2018 (5 months), technically reviewed by WHO staff and a Selection Review Committee.

**Launch:** July 23 2018, high-level “Ministerial Policy Dialogue on HIV and related comorbidities in eastern Europe and central Asia”, hosted by WHO/Europe and the Government of the Netherlands in Amsterdam.
