

Invitation

1-Day Dissemination Conference

Time: 26th November 2012, 11.00 – 16.00 h

Place: Jean Monnet Building, Luxembourg (Kirchberg)

Jean Monnet (JMO)

rue Alcide De Gasperi
L-2920 LUXEMBOURG

Organiser/Registration: SPI Forschung gGmbH, Berlin, spi@spi-research.de

The BORDERNETwork Dissemination Conference aims to raise awareness, ensure visibility and enhance the effective implementation of the project results at European level.

Objectives:

- To present the main results/outcomes of the BORDERNETwork project and to ensure their dissemination to the main stakeholders among European health policy makers, EU-funded projects and initiatives, researchers, practitioners, civil society representatives in the field of HIV/STI prevention, diagnostic, referral and treatment
- To advance the dialogue and exchange on the bottom-up implementation of highly active prevention approaches in interdisciplinary cross-border cooperation and to ensure the feedback to practice

Key topics (selected):

- ***Link better epidemiological and behavioural research to prevention interventions:*** research findings of HIV/STI sentinel surveillance in 4 EU countries and integrated bio-behavioural surveillance among sex workers in 7 EU countries
- ***Integration of stand-alone measures:*** access to early HIV/STI diagnostic for vulnerable groups and improved management of HIV and Co-infections
- ***Enhance participatory prevention:*** effective models of community-based prevention for migrants/ethnic minority communities
- ***Improve quality of youth prevention:*** comprehensive self-evaluation tool for HIV/STI and sexual health activities
- ***Interdisciplinary networking and highly active prevention in practice:*** a country case of Latvia
